

Presentation of Specification to TSG

Presentation to: TSG GERAN Meeting #55

Document for presentation: TR 45.926, Version 1.0.0

Presented for: Information

Abstract of document:

This TR documents the progress of the study on Solutions for GSM/EDGE BTS Energy Savings.

Changes since last presentation to TSG Meeting #54:

The TR has been updated in regard to network scenario considerations in chapter 4, to performance and compatibility objectives in chapter 5 and to common assumptions in section 6.

Outstanding Issues:

Completion of performance evaluation for candidate solution in chapter 7 for both traffic scenarios and completion of chapter 8 on summary and conclusions. The estimated completion date is GERAN#56, November 2012.

Contentious Issues:

None.

Change history of this document:

1999-11-17: original issue

2007-09-06: removal of references to Working Groups; bring names of TSGs up to date; correction of typo
